

New Directions Bulletin

November
2017

Welcome

Welcome to the 4th edition of the New Directions bulletin. This bulletin introduces the nine New Directions CHO Implementation Groups that were established by Chief Officers during 2017 as part of the National Social Care Operational Plan. These groups will be the main driver for the service changes required to deliver the New Directions Policy. The bulletin focuses on the terms of reference and membership of each New Directions CHO Implementation Group which comprise HSE Disability Managers, HSE RT / Occupational Guidance Service Managers along with representatives of each Adult Disability Day Service Providers in the CHO area.

Contact details

The establishment of the CHO Implementation Groups will work to the following Terms of Reference

New Directions Policy

- Key Performance Areas to implement the New Directions policy including Information gathering, information dissemination and managing communications with all stakeholders.

Structure

- The Development of Workplan / subgroups to facilitate responsibility for the agreed work plan / progress the principles of Community Inclusion and Active Citizenship.

Subgroups

- Members to participate as required in national subgroups required to develop specific service issues to support implementation.

Individual Plans

- The overseeing of the development of individual service provider implementation plans for New Directions based on benchmarking exercise completed by providers.

Managing Change

- Identification of challenges involved in change management required to implement New Directions and develop strategies to overcome obstacles.

Resources

- Identification of resource implications in each CHO in implementing New Directions i.e. HR, IT, Communications and change management supports required in each CHO.

Good Practice

- Identification of existing examples of good practice in delivering New Directions policy and agree structure for shared learning to support providers.

Training

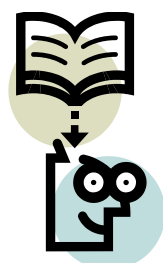

- A training needs analysis be completed by service providers and to address training needs identified for staff, parents and service users.

Collaboration

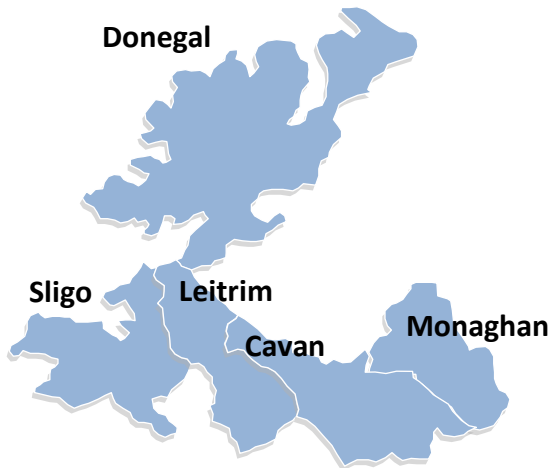

- Promotion of collaboration between all service providers in the CHO in furthering equity of access, consistency in services and managing change to new systems of service delivery.

School Leavers

- Establishment of subgroups to liaise with National School Leaver Project Group and implement agreed national process attending to needs of school leavers and those leaving RT.
